

ALL ROUNDER TRUCK

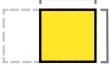

The ultimate trades unit for the plumber, street furniture and signage team, or the regional all-rounder. This part canopy service body offers the best of all worlds with a secure, dust and watertight canopy at the front and an open tray section at the rear – perfect for storing wheelbarrows, rubbish bins or even a park bench. This lightweight, fit-for-purpose build offers plenty of leeway for keeping under the GVM limit.

Features and benefits

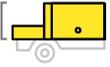

- + Side access step ensures safe and compliant access to the rear tray area so loads can be securely restrained.
- + Fold out worklights provide a wide spread of light in any direction, handy when looking for building numbers at night or lighting a worksite after dark.
- + Large gullwing doors offer ample protection from the elements, bolstered by our popular 'door open seal' system that prevents rain leaking into the body - and onto you - when open.
- + The included fridge enables crews to stay in the field all day with access to chilled food and water, avoiding the need to leave site to maintain health and safety requirements.
- + The fold down workbench is a great surface for using a laptop or tablet, or arranging components for a job.
- + Single key fob locks your vehicle and service body.

FEATURES & BENEFITS

Truck Service Body shown.

- A Aluminium polymer co-bonded construction.** For the lightest possible weight, maximum vibration absorption, reliability and rust resistance.
- B Concealed dual action adjustable hinge.** Keeps moving parts out of the weather, provides world-class security and sealing at the top, bottom and sides.
- C Flush floor system.** Never jam your fingers against a floor lip again! Easier to unload, use sliders and drawers.
- D Internal, external & under tray integrated fixing tracks.** For easy accessory repositioning & avoiding the need to drill holes in your service body.
- E Contoured body.** A unique shape designed with modern vehicle aesthetics, aerodynamics and fuel efficiency in mind.
- F Sealed tight.** The door seal channels water away, helping keep your workspace dry while the door is open. And our positive sealing system seals against dust and water ingress when closed.
- G Removable tail light panel.** Easy to replace if damaged and superior to welded tail light panels which can be costly to replace. Get back on the road quicker after minor accidents.
- H Security.** Single rotating lock handle with hardened locking rods and stainless steel striking plates offers unrivalled strength and security, giving you peace of mind.
Hidrive doors are also more easily replaceable than flush mounted designs.

TECHNICAL SPECIFICATIONS

BODY TYPE	Part Canopy	BUILD	S81749 Single Cab
NAME	All Rounder Truck	DOORS	2

CANOPY

- Overall body: L4500 x W2200 x R3600mm
