

# TRAILER SERVICE BODIES

Fit-for purpose. On time. Nationally.

*Updated January 2025*

**ON-TIME  
GUARANTEE**

“We invested in Hidrive service bodies for our utes and a Hidrive trailer for flexibility and reliability. During the day, one team can be left with a trailer at one turbine, then another team can work out of the service body on the ute at a second turbine. Then at night, the utes go home and the trailer stays on site for the night crew.”

Brad Sheridan, Vestas Service Technician

# NOT ALL SERVICE BODIES ARE CREATED EQUAL

MAKE CERTAIN

Vestas has a fleet of Hidrive ute service bodies plus a Hidrive trailer, giving them unbeatable coverage to service and maintain their NSW wind farm operations. Learn from their video case study and others at [hidrive.com.au/case-studies](https://hidrive.com.au/case-studies)

THEY MADE CERTAIN

We've built over 24,000 service bodies since 1993.  
Here are some of our clients who made certain their  
service bodies were fit-for-purpose and built to last.

# FIT FOR YOUR PURPOSE

Our highly skilled team design, manufacture and install fit-for-purpose service bodies for utes, trailers and trucks, on time, with certainty.

**Consistency = Productivity.**

With Hidrive fitouts in your utes, trailers and trucks nationally, set them up so everyone can share vehicles and know where everything is. This saves you time and daily hassles for years to come.

**Better resale - Hidrives go the distance.**

Whilst our structural warranty is 3 years, we know of bodies that have lasted 15+ years and must have done over 1 million kilometres. Make certain your fleet is fit for your purpose for years to come - and get better resale value.

**Consistency = Safety.**

If all your utes, trailers and trucks have Hidrive fitouts nationally, your workforce can use any vehicle and be familiar with how to safely operate each mobile workspace.

## YOUR 10 POINT FIT-FOR-PURPOSE CHECKLIST

### Is it aluminium?

Yes, for durability, the lowest weight and maximum payload - plus, it won't rust!

### Is it secure?

Yes, central locking plus our latch and lock door system offers unrivalled strength and security.

### Are the doors sealed against weather and dust?

Yes, our external door seals prevent damage occurring when loading/unloading and provide a positive seal against rain and dust.

### Can you work out of it?

Totally, we are the mobile workspace specialists! Gullwing doors provide shelter, while over 190 accessories offer the ultimate in organisation.

### Will your gear be secure and organised?

Your investment in Hidrive drawers, shelves and dividers will help ensure your tools won't move around during transit.

### Is it durable?

Yes, a Hidrive will not develop structural cracks or rust.

### Has it got integrated roof, ceiling, wall and underfloor fixing tracks?

Yes, you can add, shift or remove accessories without drilling.

### Does your fleet look and function consistently?

Boost safety with Hidrive accessories in your national ute, trailer and truck fleet.

### Is it designed for maximum productivity?

Yes, we've fitted out our trailers with accessories, storage and access to power to keep your crews going strong all day every day.

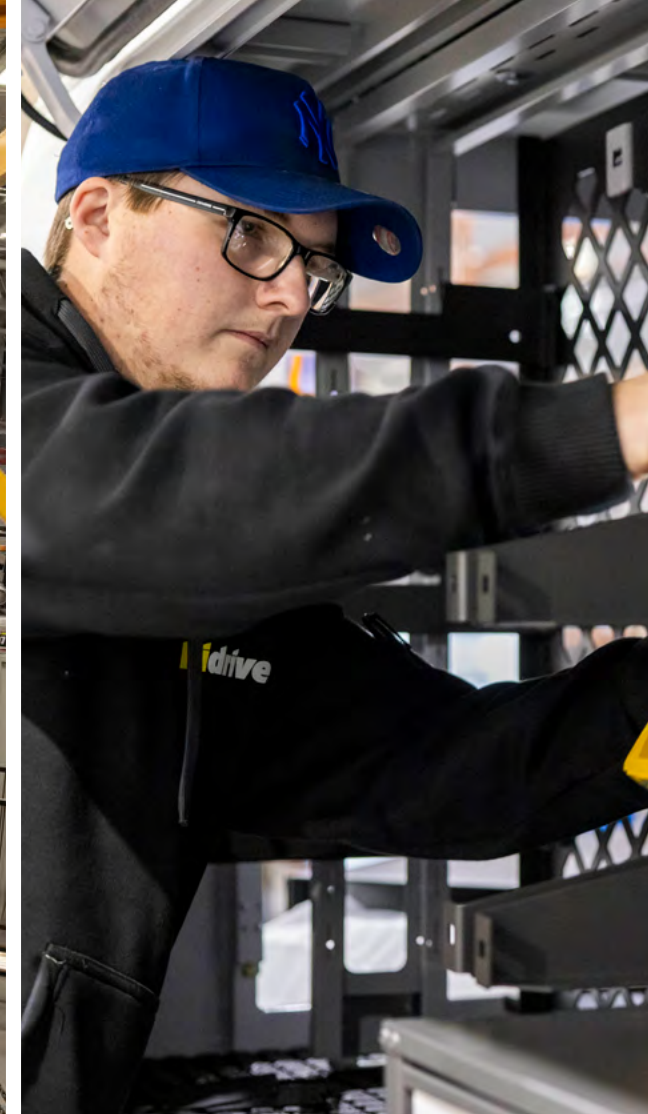

### Is it compliant?

Yes, Hidrive is ISO certified for quality, environment and safety.

**hidrive**  
MAKE CERTAIN

# WE MAKE MORE OURSELVES

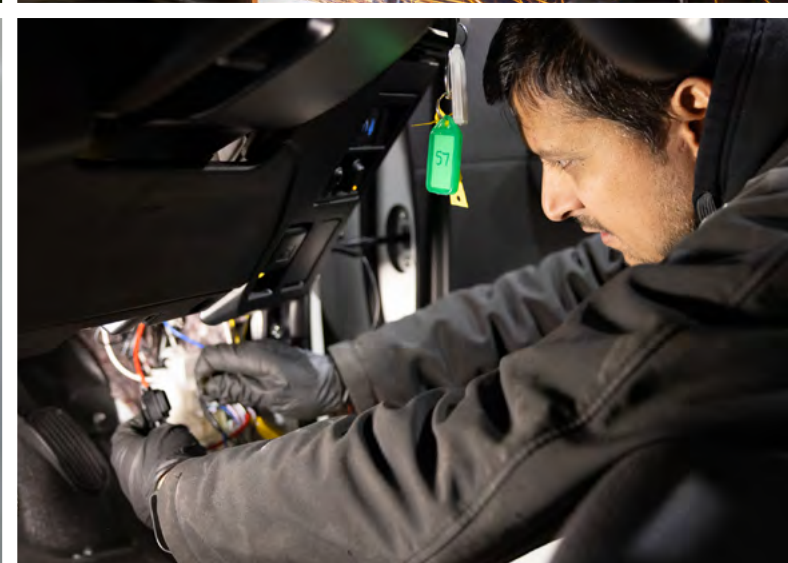

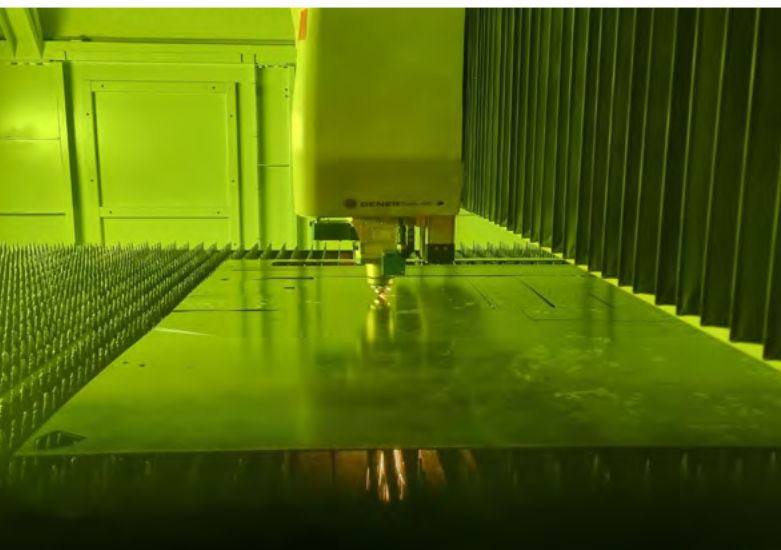

**For consistency and national delivery.**

No other service body manufacturer designs, builds and installs more service bodies or accessories than us.

What we don't make ourselves we source locally as much as possible. When you want to add to your fleet or you need spare parts, you can rely on us. Forget the stress of overseas shipping delays and hoping that factory overseas still makes the thing you bought last time - choose Hidrive for Aussie-made reliability and quality.

We manufacture over 190 accessories (in various sizes) from our production facilities in NSW and WA, including:

- Best in class canopies for utes, trailers and trucks
- Shelves
- Drawers
- Sliders
- Towbars
- Signage, vehicle wraps, safety decals
- Slide out work benches
- Side steps
- Roof racks and roof bars
- Dividers (mesh and full panels)
- Ladders and ladder rollers
- Guards
- Underbody boxes
- Underbody roller drawers
- Lockable boxes
- Safety cone holders
- Gas bottle holders
- Spare tyre holders
- Jerry can holders
- Hinges, doors, spares and more!

# A ONE-STOP SHOP THAT DELIVERS NATIONALLY, ON TIME, WITH **CERTAINTY**

We're Australia's leading one-stop-shop for ute, trailer and truck service bodies. Our trailers come standard with a formidable range of accessories to set your work crews up for success. We even design and install professional signage, branding and wraps so you can create the best impression for your customers. Avoid the delays and hassles of dealing with multiple suppliers and let Hidrive take care of everything for you.

- 

TAILORED SOLUTIONS THAT ARE FIT FOR YOUR PURPOSE

## Customer Care & Technical Support

We make it easy from day one.

Once you've completed your consultations with your Mobile Workspace Specialist and placed your order, our team of 10+ full time Customer Care and Technical Support staff are there for you. We coordinate with your local dealer, Fleet Management Organisation and our manufacturing team to provide:

- Accurate information on the status of your fleet, using real-time information that is fed directly from our production system
- Live and transparent information on the location of all vehicles, stage of production and delivery timelines
- Weekly status report links that can be sent to all stakeholders

Hidrive is dedicated to providing the highest level of customer service to our clients throughout the journey of their fleet roll-out.

## National Support Network

Hidrive provides your business with nationwide support from our installation and manufacturing locations in Sydney, Melbourne, Brisbane, Perth, Adelaide and Goulburn.

## Hidrive Serial Numbers

Every build has its own unique Hidrive serial number, enabling us to trace any service requirements back to the source with greater ease.

## Ongoing Support

Need advice, service, parts or accessories? Our national team is in place to get you back on the road with minimal downtime.

## HIDRIVE TRIPLE ISO CERTIFICATION

Is ethical sourcing and risk-management a priority for your organisation? Hidrive offers world-class assurance. Hidrive is proud to hold triple ISO certification encompassing ISO 9001 Quality Management, ISO 14001 Environmental Management and ISO 45001 Safety Management. Hidrive is the first Australian manufacturer of service bodies to receive a triple ISO certification. In attaining triple ISO certification, Hidrive met stringent international standards and demonstrated our commitment to consistent quality, environmental sustainability and workplace safety. This milestone reinforces our reputation as an industry leader and sets a benchmark for excellence in the manufacturing of service bodies for utes, trailers and trucks.

**STEP  
1**

CHOOSE  
YOUR  
CHASSIS

# WHICH TRAILER IS RIGHT FOR YOU?

Our knowledgeable Mobile Workspace Specialists can assist you to choose the right trailer for your trade. Considerations include:

YOUR  
INDUSTRY

LOAD  
HANDLING

INTERNAL AND  
EXTERNAL STORAGE

2T OR 3.2T ATM

EQUIPMENT  
SPACE

WORK  
ENVIRONMENT

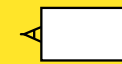

We offer a range of trailer models, fully-assembled with the aluminium rolling chassis.

Hidrive bodies are fitted directly onto the alloy trailer chassis. We **do not** fit bodies onto an existing trailer floor.

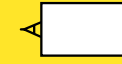

This reduces weight, avoids waste and maximises the available space within our trailers.

Our trailers are equipped with a range of purpose-built accessories so your crews can get the job done efficiently and safely for years to come.

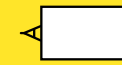

Hidrive trailers come complete with a fitment declaration for ADR compliance, weight compliance report and full registration in your state or territory.

# FEATURES & BENEFITS

Our products have been proving their mettle in the toughest Aussie conditions since 1993. Through 30 years of continuous improvement, innovation and craftsmanship, our service bodies have evolved into the high-performance range you see today.

Built like an aircraft fuselage, our light and durable aluminium canopies are engineered to maximise payload and stability, improve fuel efficiency, and be resistant to corrosion, UV damage and vibration.

**A Aluminium polymer co-bonded construction.**

For the lightest possible weight, maximum vibration absorption, reliability and rust resistance. For these reasons, the trailer chassis is also aluminium.

**B Removable tail light panel.**

Easy to replace if damaged and superior to welded tail light panels which can be costly to replace. Get your trailer back on the road quicker after minor accidents.

**C Contoured body.**

A unique shape designed with modern vehicle aesthetics, aerodynamics and fuel efficiency in mind.

**D On-site power, solar and batteries.**

Charge tools and run lighting anywhere with the included REDARC solar panel, battery charger, 1200W inverter with RCBO, and dual battery system. If an earth fault occurs, RCBO (residual current circuit breaker with overcurrent protection) protects you and your tools against electrocution and fire. Ensure you can take your vehicle onto more job sites, and future proof your trailer, with this world-class electrical safety system.

**E Security and functionality.**

Single rotating latch with hardened locking rods and stainless steel striking plates offers unrivalled strength and security. The simple twist and turn latch enables one-handed operation. If damage occurs, Hidrive doors are more easily replaceable than flush mounted designs.

**F Flush floor system.**

Eliminates the need to build a false floor to allow for drawer and accessory mounting, plus never jam your fingers against a floor lip again!

**G Internal, external & under tray integrated fixing tracks.**

For easy accessory repositioning and avoiding the need to drill holes in your service body (optional rubber inserts sold separately).

**H Sealed tight.**

The door seal channels rain away when the door is open, ensuring you and your workspace stay dry. Our positive sealing system prevents dust and water ingress when closed.

**I Concealed dual action adjustable hinge.**

Keeps moving parts out of the weather, provides world-class security and sealing at the top, bottom and sides.

**J Trailer Light Lock & Go System.**

Includes remote central locking, door activated\* internal LED lighting and 12V double cig socket. Remote central locking saves you time at every job. With its separate remote, solar and dual battery system, the trailer is a stand-alone workspace. Door keys provided for manual locking. If the solar panels are not exposed to sunlight for extended periods, the dual battery system can be charged & electrical operation maintained with a generator or on-site power.

\*Door Ajar Alarm System only available on utes/trucks.

**K Hidrive trailers come complete with full registration**

in your state or territory, saving you time and hassle.

S98949

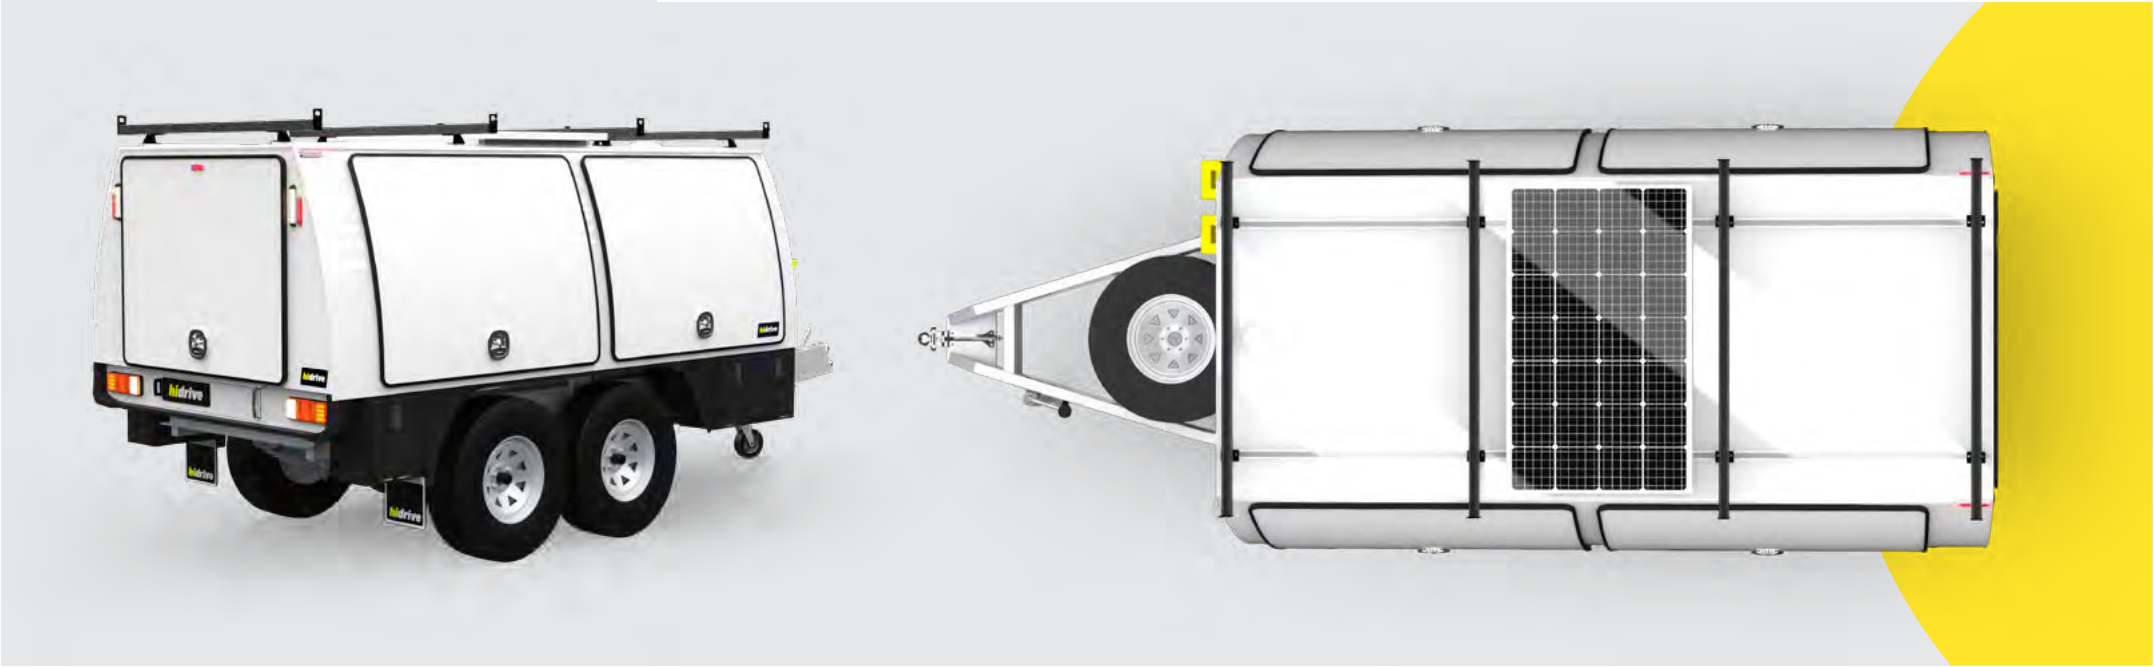

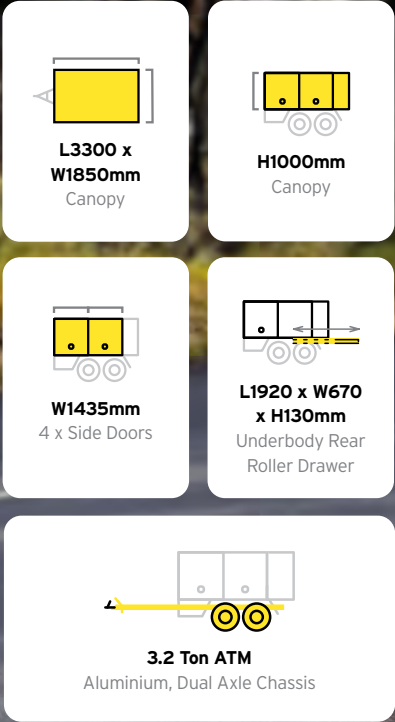

# FULL CANOPY HYDRAULIC TRAILER

Be ready to work anywhere, at a moment's notice.

This high-spec trailer is engineered and fitted out specifically for hydraulics engineers and technicians.

The full canopy service body offers ample storage for tools and stock, and maximum real estate for signage and branding. Heavy-duty slides enable mounting of a crimping tool and a cutting tool. A shore power inlet plug gives you access to external power sources.

- + 33 included accessories
- + Purpose built for hydraulic trades
- + Outstanding storage and functionality
- + Central locking
- + Commercial roof bar kit
- + Lithium dual battery system & solar panel
- + Four sealed, lockable, powder coated underbody boxes

# TOOL CANOPY ALL ROUNDER

This powerhouse trailer offers a centre aisle for longer items and tools you need kept out of your canopy, such as a compressor.

The lockable aisle cover and door provide ventilation while keeping your gear secure.

The two lockable toolboxes are ideal for slide-out benches and drawers, and the flush floor eliminates a dangerous floor-lip pinch point.

+ 20 included accessories

+ Outstanding storage and functionality

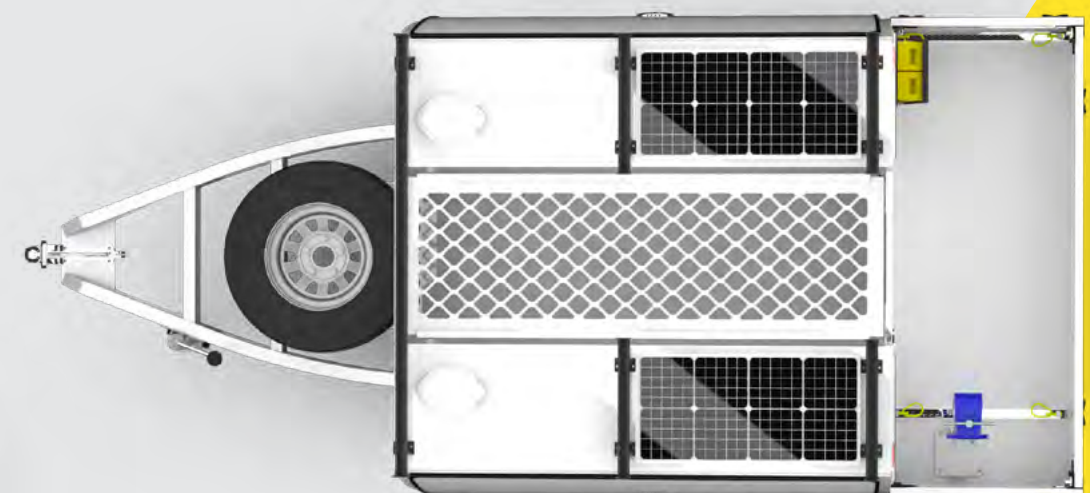

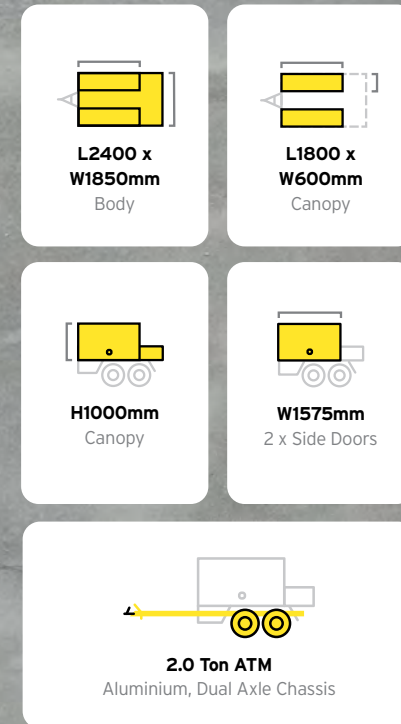

+ Central locking

+ Commercial roof bar kit

+ Lithium dual battery system & solar panel

+ Sliding removable mesh aisle roof

+ 240V shore power inlet (10A)

# Signage & Wrapping for Utes, Trailers and Trucks.

High impact, professional vehicle signage gives your business 24/7 visibility, builds brand recognition and promotes customer loyalty.

Our FleetBrand service includes everything from reflective strips, call signs and compliance decals, to tailored branding and full vehicle wraps.

- Show the world you mean business
- Look professional and be remembered
- Boost the esteem your staff hold for your brand
- Packages to suit all budgets and vehicles

MODEL SHOWN: FULL CANOPY FW TRAILER

## Vehicle Signage

We offer a full suite of signage services including branding, vehicle wraps, compliance decals and promotional signage.

Well-designed signage on your service vehicle fleet will increase brand recognition for your business. Our FleetBrand team are experienced design and installation professionals who you can trust through the design, production, and installation processes. View our Hidrive FleetBrand<sup>TM</sup> brochure for our range and design inspiration for vehicle signage.

## Compliance Decals

- GVM
- Fire Extinguisher
- First Aid
- Spill Kit
- Call Sign
- Fleet/Unit No

Save headaches by discussing your compliance needs with a Hidrive Mobile Workspace Specialist.

## Call Signs

- Produced using fluorescent yellow/green class 1 reflective material for side application.
- 260mm depth box size with 200mm depth text made to BMA specification.
- Rear call sign resized to suit workable space, produced from non-reflective material.

## Chevrons

Produced using yellow and red class 1 reflective material. Available in full or partial coverage to suit all service body types and sizing.

## Conspicuity Tape

50mm/70mm class 1 hi-vis reflective stripe. Compliance for mine and civil sites.

- White reflective tape to be used on front and sides of vehicles
- Fluorescent yellow/green reflective tape to be used on sides of vehicles
- Red reflective tape to be used on sides of vehicles
- Yellow reflective tape to be used on sides and rear of vehicles

# Gecko Cleantech Spills Trailer

**For orders of five or more trailers, we can tailor a solution for you, like we did for this valued client.**

## The Client

Gecko Cleantech is a leading national supplier of spills response equipment, clean-up products and hazardous liquids storage. They assist companies to comply with environmental and OH&S regulations and create safer workplaces. Based in Goulburn, New South Wales, the business has operated since 1997.

“Airports are large areas and spills can occur anywhere. Clean up crews need to be prepared at a moment’s notice, with a reliable trailer, to attend to spills anywhere across the airport.”

**RICK OHLMEYER, CONSULTANT - GECKO CLEANTECH**

## Needs Analysis

The client required a highly specialised trailer for the safe storage and transport of equipment, chemicals and hazardous materials such as oil and fuel, biological liquids, fire-fighting foam, and solvents, to enable fast clean up of spills around the airport. It needed to be durable, easy to manoeuvre by a single operator and resistant to rust and weather.

## Our Solution

The highly specialised Gecko Cleantech rapid response trailer is an innovative product that fully meets the client’s requirements for world class, rapid response, environmental and hazard clean-up capabilities.

“Our customers have peace of mind knowing this is a reliable product that’s going to be backed for years to come.”

**RICK OHLMEYER, CONSULTANT - GECKO CLEANTECH**

# SUSTAINABILITY

Choose Hidrive for the lowest possible carbon footprint.

**Built to last.** Whilst our structural warranty is 3 years, there are many Hidrive bodies that have lasted 15+ years and done over a million kilometres. Hidrives are not fast fashion, they're built to last. Don't choose a service body that'll end up in landfill at the end of a 3-year lease.

**Less fuel, lower carbon emissions.** Our aluminium service bodies are around 100kg lighter than steel so they burn less fuel and generate lower CO2 emissions than steel canopies. For every 100kg weight reduction, fuel consumption can decrease by 0.4L/100km for light trucks. That's 4000 litres (9 tonnes of CO2) potentially saved over the 1 million kilometres a Hidrive service body may be used for.\*

**Brakes last longer.** Hidrives are lighter so your brakes and brake rotors last longer, again reducing your footprint.

**Won't rust.** Aluminium does not rust so your fleet will look great for years to come. It also means minimal need for repainting for corrosion avoidance which contributes to a lower carbon footprint.

**Made in Australia.** All Hidrive products are Australian made which means the lowest possible shipping carbon footprint, and the certainty of being made under our strict environmental laws.

**Durability and experience.** Your Hidrive body and all Hidrive manufactured accessories are made to last. We've made over 23,000 bodies and aside from accident damage, less than 0.02% have developed a structural crack.

**One-stop-shop.** We're a one-stop shop, for lowest local shipping carbon footprint. Hidrive do more under one roof than anyone in our industry. This lowers your carbon footprint by negating the need to transport your body to multiple suppliers and locations to complete your build.

**We don't use fibreglass products.** We don't use fibreglass fibres or resin at all. Fibreglass is not recyclable, is a hazardous pollutant, and is a risk to human health (especially when airborne).

**We recycle as much as possible.** Hidrive holds ISO 14001 environmental management certification and we recycle as much as possible at our manufacturing and installation locations.

**50-year recycling guarantee.** Anyone can return any Hidrive-branded product to any Hidrive location and we'll ensure it is given to a reputable recycling service at no charge to you.

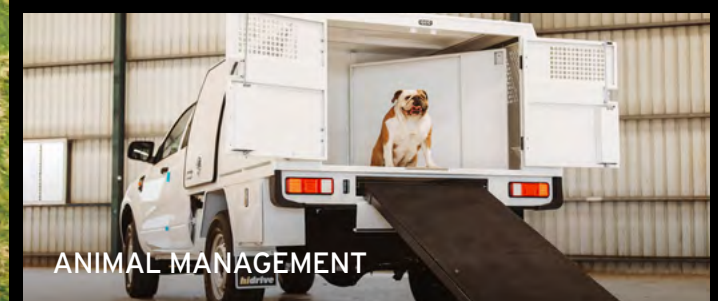

# UTE SERVICE BODIES

We listen to your needs, understand your trade, and apply 30+ years of expertise to set your fleet up for success. We use alloy for the floor, frame and body of all our canopies. The long-term benefits of alloy are that it's rust-resistant, durable and lightweight so you stay under your gross

combined mass limit, use less fuel and have shorter braking distances.

To learn more about the advantages a fleet of Hidrive ute service bodies can bring to your business, contact our Mobile Workspace Specialist team on 1300 350 625 or visit [hidrive.com.au/ute](https://hidrive.com.au/ute).

# TRUCK SERVICE BODIES

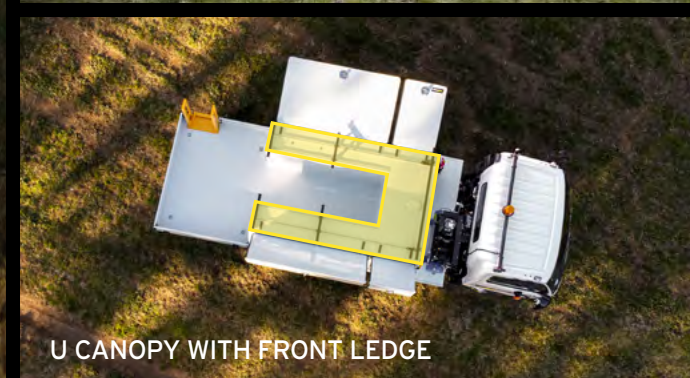

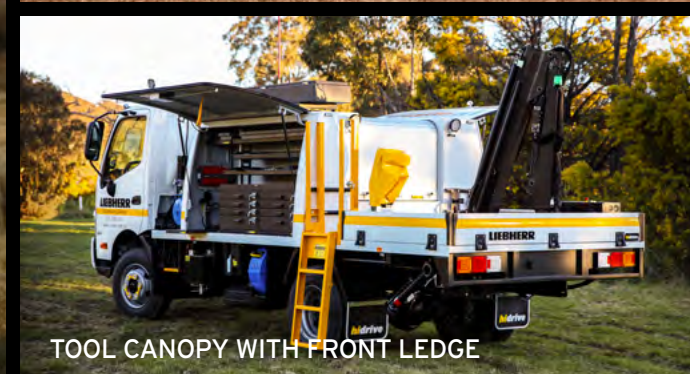

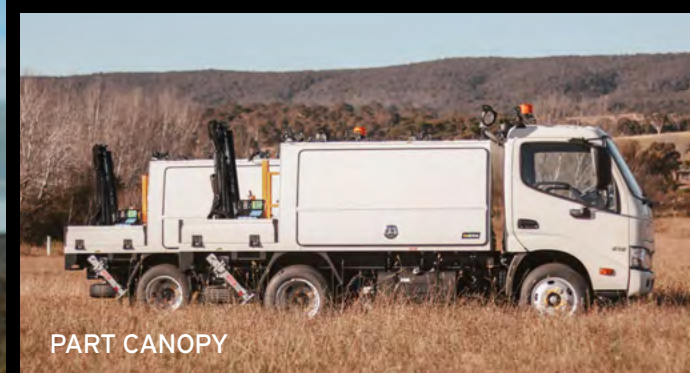

Hidrive service bodies are available for 4x2 & 4x4 trucks up to 8t GVM.

The service body sizes are tailored for your chassis with full canopy widths varying from 1900mm to 2400mm and lengths from 3300mm to 4650mm.

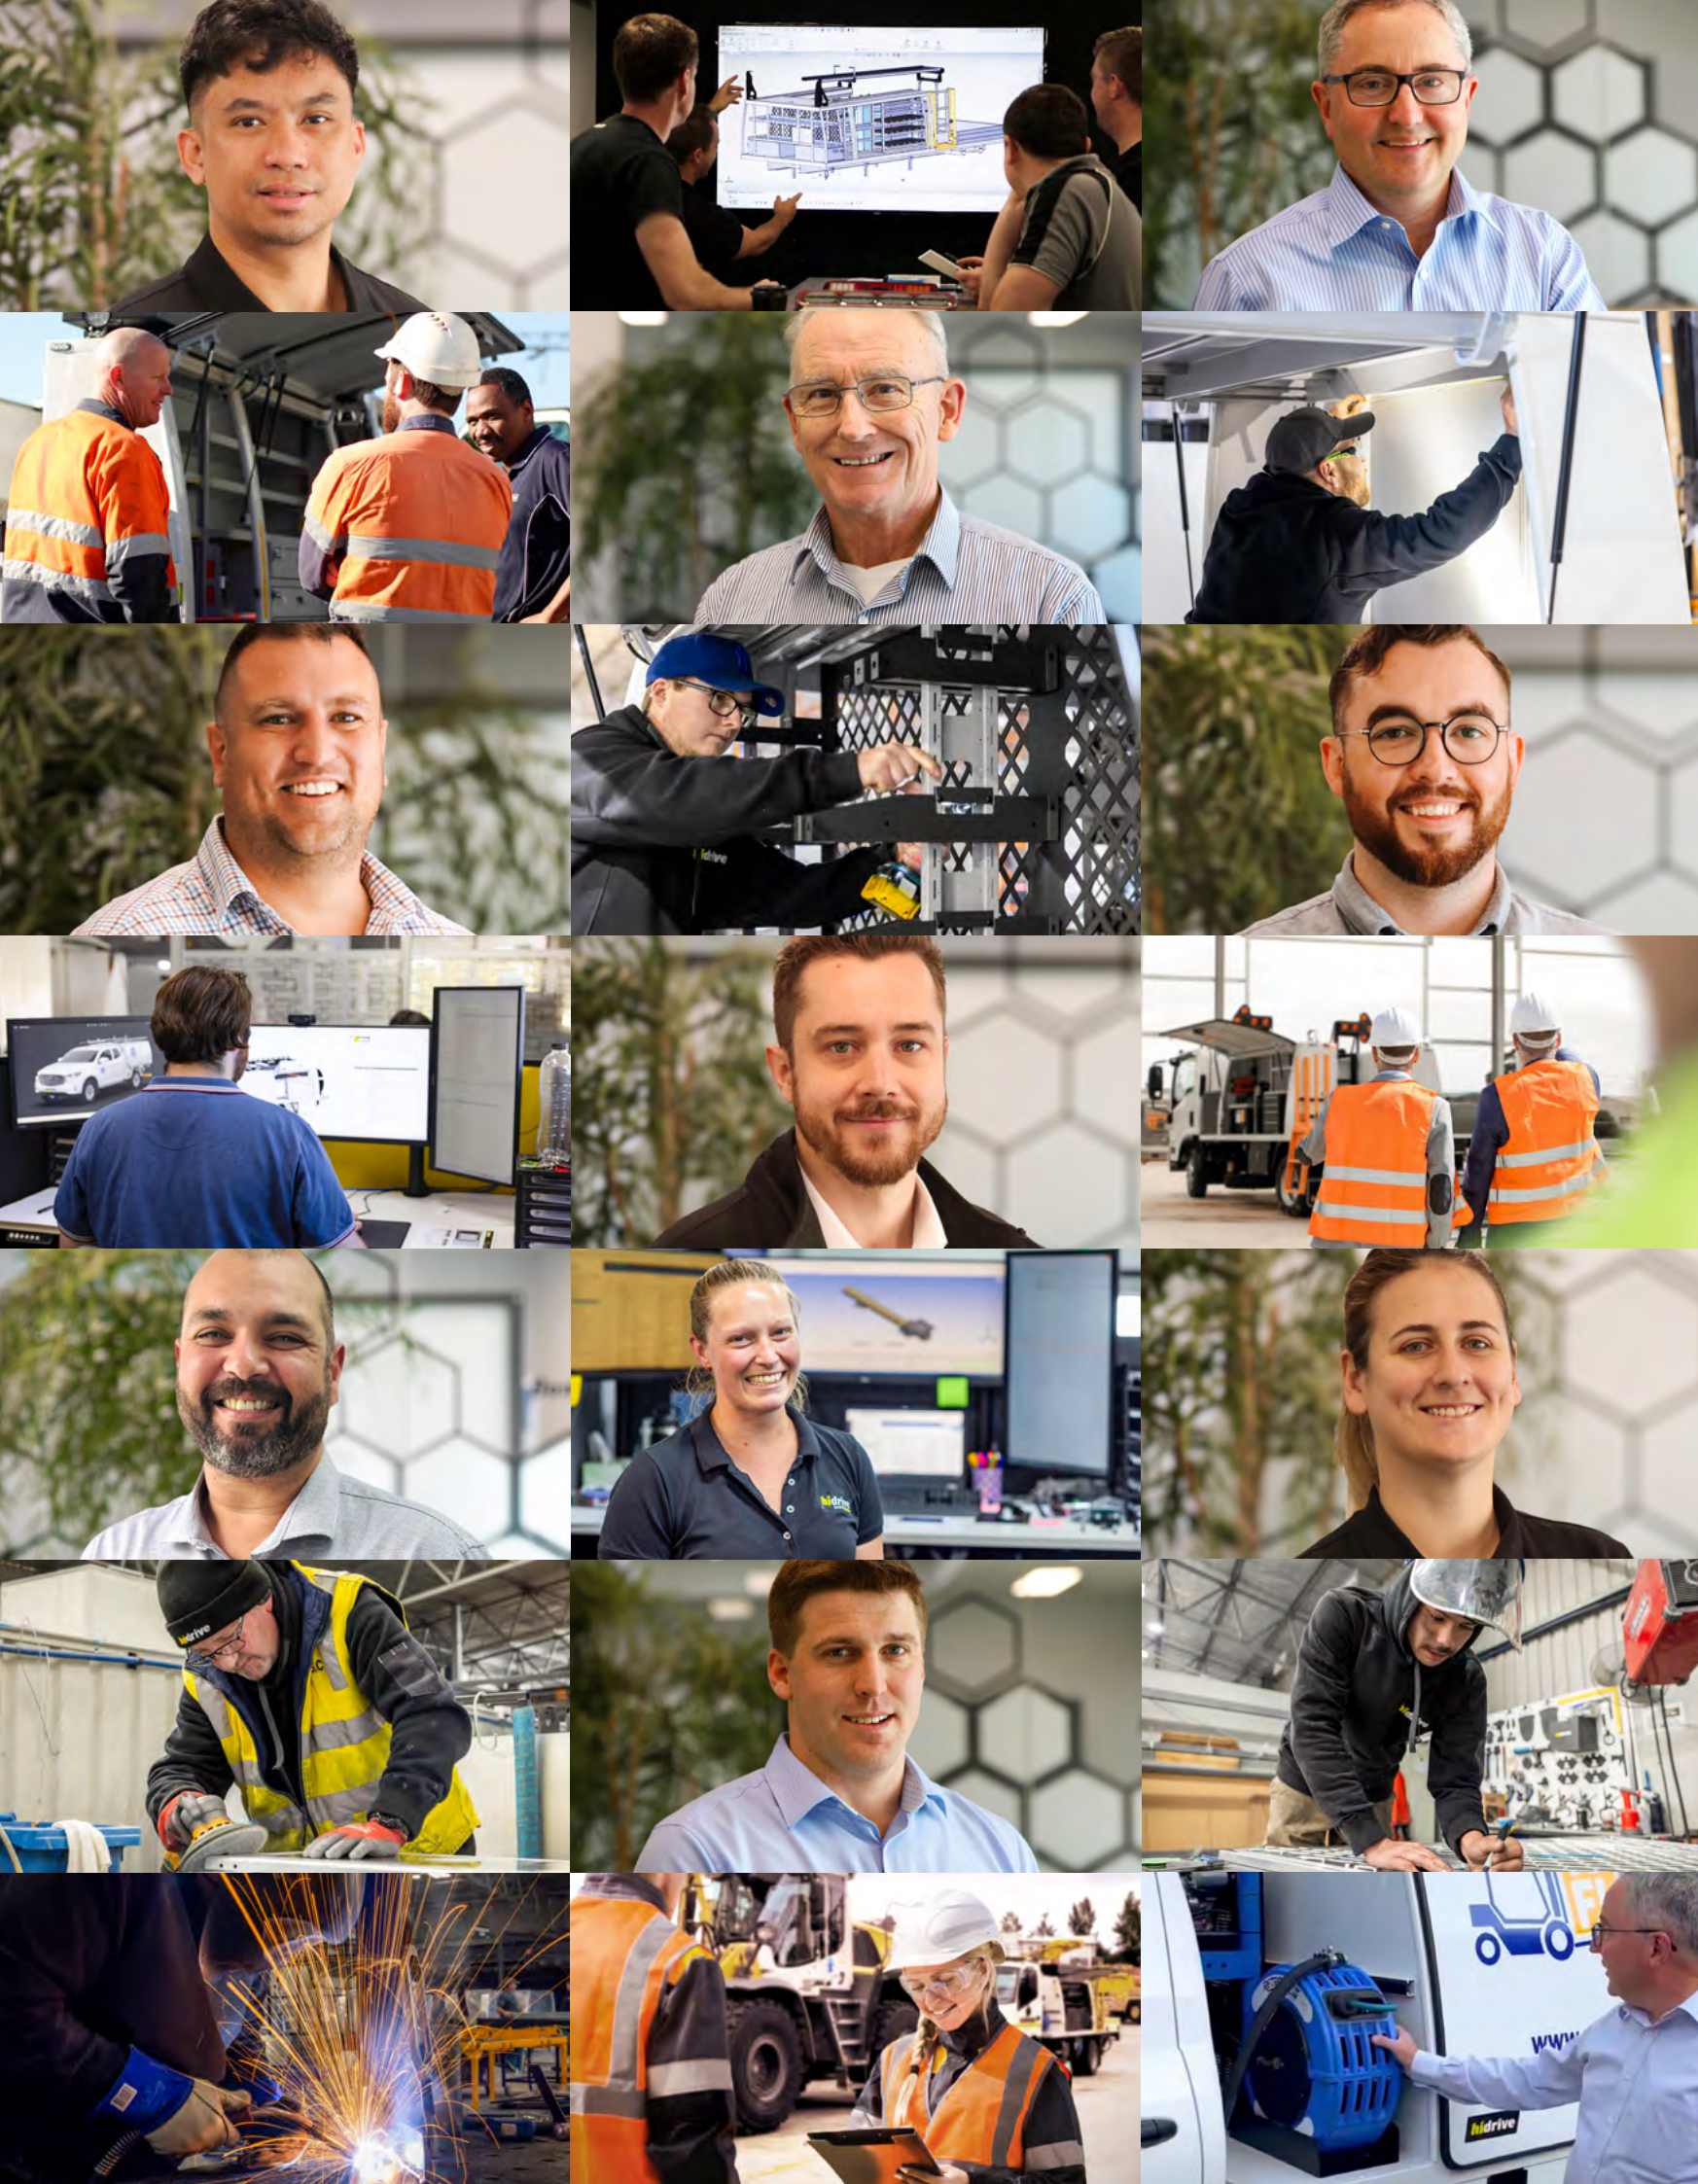

The height of our full canopies can be up to 1400mm high.

The full suite of 190 groups of accessories are available to tailor your truck to your application.

To learn more about the advantages a fleet of Hidrive truck service bodies can bring to your business, contact our Mobile Workspace Specialist team on 1300 350 625 or visit [hidrive.com.au/truck](https://hidrive.com.au/truck).

# LET'S CHAT!

## ***Avoid headaches for years to come.***

Selecting the ideal trailer for your needs demands expert guidance. Our extensive range offers a solution for every application. Our friendly team know which questions to ask to ensure you get all the accessories, features and benefits you need to get the job done.

Here are five reasons why booking a free consult with a Hidrive Mobile Workspace Specialist is a no-regrets move:

- ① Your service body will be used for years to come. The right advice now will save you time and money.
- ② You'll benefit from the lessons we've learned from over 24,000 other service bodies we've made since 1993. In this way, a Victorian electrical business can get inspiration from a similar fleet fitout in WA.
- ③ Whatever industry you're in, we've got the know-how and experience to tailor your service body fleet to your specific application.
- ④ Utes, trailers or trucks - we're here to understand your organisation and support you long term.
- ⑤ Without the best guidance, are you risking the safety, compliance, satisfaction, productivity or reputation of your business?

Chat with one of our helpful Mobile  
Workspace Specialists.
